

We are building a smarter, more sustainable world by helping businesses and communities reimagine what their waste can do.

Here are some of the many ways we are doing that every year!

## Materials

**20M**

tons of waste managed sustainably

→ 6-lanes of garbage trucks, bumper to bumper, from NY to LA

**500,000**

tons of ferrous and non-ferrous metals recycled

→ 8.1 million steel and aluminum cans or 5 Golden Gate bridges

**125,000+**

tons of waste engineered as alternative fuel

→ displacing over 250 million pounds of coal

**9.7M**

pounds of e-waste recycled

→ 3 million laptops

**1.8M**

tons of waste recycled or reused

→ 413 barges-full of recyclables

**5.8M**

pounds of post-consumer pharmaceutical waste safely destroyed

→ 36 million pill bottles

**280M**

gallons of wastewater recycled/reused

→ 570 Olympic-sized swimming pools

## Climate

**41M**

metric tons of GHGs avoided

→ removing 9.8 million cars from the road

**9.3M**

MWhe of total electricity and steam generated by TTFs

→ power nearly 900,000 homes

**28M**

MMBTU of fossil fuel displacement from steam generation, alternative fuel engineering, and metal recycling

→ 20,600 tanker trucks of gasoline

## People

**12,000**

hours dedicated to volunteering with our neighbours

**2,000+**

interactions with our communities

**36,000**

meals provided in underserved communities

**33,000**

flags honorably retired

**8**

New acquisitions

**90+**

Total facilities

**2,000+**

Rolling Assets in Transportation Fleet

**#1**

Scaled zero waste-to-landfill platform in the U.S.

**81%**

Increase in waste recycled and/or reused compared to 2021

Became North America's largest independent supplier of refuse-derived alternative fuel
