

# SAILBOAT RACING & LEAVING SUSTAINABLE OCEANS IN OUR WAKE

# SPORT UNITES

11TH HOUR RACING

# MISSION

A woman with vibrant blue braided hair is the central figure, wearing a blue wetsuit and a black diving mask. She is positioned in the center-right of the frame, looking upwards and to the left. The background is a dark, blue underwater environment filled with dense, brown seaweed that sways around her. The lighting is dramatic, highlighting the woman's face and the texture of the seaweed against the deep blue water.

To foster connections for healthy sea, land, and people, we invest in innovative and sustainable solutions for the ocean and our communities.

We inspire action through sport, shape vision through storytelling, and catalyze impact through grantmaking.

A large school of fish swimming in a circular pattern around a diver in the ocean. The scene is captured from an underwater perspective, showing the diver in the lower left and the massive school of fish forming a large, dense circle in the center. The water is a deep blue color.

A composite image showing a woman in a kitchen with a young child, and a close-up of a compost bin with a large whale tail sticking out of it, splashing water.

# FAN ENGAGEMENT

**Amory Ross**  
Media Crew Member

USA

AGE: 39  
4th  
Race Around The World

**PROVIDED OPTIMIZED RESULTS:**  
Best optimized with a lot of hot cranes.

**ONE THING YOU CAN'T LIVE WITHOUT:**  
Hot Sun (she needs)

**WHAT KEEPS YOU GOING?**  
Being beyond passionate about things together as a team while exploring some of Earth's most remote corners, many still free of human influence.

**BY WAY OF SAYING:**  
Leave nothing behind. As we rock in the ocean, don't add to the trash problem, and always dispose of your waste correctly back home.
